

Visualize water use and groundwater allocations for your farm on the new Water Dashboard.

SIGN UP TO BE NOTIFIED WHEN THE WATER DASHBOARD GOES LIVE THIS MONTH:
WWW.GSAWD.COM

New rules and regulations for groundwater allocations are being developed in your area, along with a new online tool to help landowners understand how this impacts them at the farm level. The East Kaweah GSA is using evapotranspiration (ET) data to measure groundwater use and track each landowners' groundwater allocation. You can view and track this data for your farm by creating an account on the Water Dashboard. **Sign up to be notified when the Dashboard goes live this month:** www.gsawd.com

NEW WATER DASHBOARD WILL ENSURE THE CONTINUED SUCCESS OF OUR LOCAL LANDOWNERS

Why set up an account on the Water Dashboard?

1. THE WATER DASHBOARD CALCULATES YOUR TOTAL WATER USE AND GROUNDWATER ALLOCATION.
2. YOU CAN USE THE DASHBOARD TO MAKE SURE THE EAST KAWEAH GSA GETS YOUR FARM INFORMATION RIGHT.
3. VIEW FARM WATER INFORMATION TO PLAN YOUR FUTURE CROPPING DECISIONS.

250+
LANDOWNERS
IN YOUR AREA
WERE ENGAGED
IN DASHBOARD
DEVELOPMENT
AND TESTING.

The Water Dashboard will be available to all East Kaweah GSA landowners this month (July). Sign up to be notified when the Water Dashboard goes live: WWW.GSAWD.COM

Landowners with an ILRP Farm account can save time by automatically transferring their farm information into the Water Dashboard.

UPCOMING WATER DASHBOARD EVENTS

Landowners who would like assistance setting up their Water Dashboard account should attend a Registration Drop-In Event. All landowners should attend the upcoming Dashboard Workshop to learn more about how the Water Dashboard can help you visualize and manage your water use information.
